

7-19-15

Well we had a nice hot humid day, but 31 shooters came out to shoot at what will likely be our last match at Desperadoville. The stages down at Arkoe Outdoors are coming together nicely, and everything should be ready for our inaugural shoot there next month.

Top shooter for our match today was of course Lassiter, and top female shooter was Honey B. Quick. There were 9 clean shooters (though maybe not so clean after slogging around in all that mud!). Col McNalley, Josie Marcus, Lassiter, Lonesome Chuck, Ole Saddlebags, Paragon Pete, Sidewinder Jer, Stagecoach Hannah, and Thomas Quigley. Nice shooting to all of you!

Thanks to everyone who helped come out and set stages for the match, and everything else from writing stages to scoring and putting everything away after the shooting is done. We can't put on the matches without your help.

The next construction day down at Arkoe will be this Wednesday, if you can come help get in touch with Boone for details. We will also be moving everything from Desperadoville down to Arkoe at some point between now and the next match. Stay tuned for an email with the details, any trucks, trailers and hands will be helpful for getting everything at its new location.

Chigger took a pretty bad fall on the first stage today, and he and Lady Lopez ended up leaving early just to get him checked out, so keep him in your prayers and we hope he is ok and healed up soon!
